PROFESSIONAL SUMMARY

Front-End Developer, Web Designer, and Graphic Designer with hands-on experience building and customizing responsive websites across real estate, hospitality, restaurant, automotive, and industrial service industries.

Skilled at taking a site from first draft to production-ready: refining layout, typography, and interaction detail; fixing real responsiveness and accessibility issues; and shipping fast, clean, and reliable experiences that hold up on any device.

Also works as a graphic designer, building brand identities, logos, and marketing materials that give businesses a consistent, professional presence across web and print.

TECHNICAL SKILLS

Front-End Development
HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Responsive Web Design, Mobile-First Development, Cross-Browser Compatibility, Performance Optimization, Website Deployment

Web Design
UI Design, UX Design, Landing Page Design, Responsive Layout Design, Wireframing, Website Customization, Information Architecture

Graphic Design
Brand Identity Design, Logo Design, Social Media Design, Marketing Graphics, Typography, Layout Design, Visual Communication

Tools & Workflow
Figma, Canva, Adobe Photoshop, Git & GitHub, VS Code, Netlify, Formspree

PROFESSIONAL EXPERIENCE

Independent Front-End Developer & Graphic Designer

2026 to Present

- Built and customized responsive website layouts into polished, production-ready experiences.
- Developed websites optimized for desktop, tablet, and mobile devices.
- Improved website usability, navigation, and accessibility across client projects.
- Designed modern user interfaces with strong attention to typography and layout.
- Created logos, brand identities, and marketing graphics for client businesses.
- Debugged and resolved real-world layout, contrast, and responsiveness issues before launch.
- Deployed production-ready websites across multiple industries.

FEATURED PROJECTS

D-Pikano Global Resources Ltd | **Mechanical Engineering & Industrial Services Website**
Hand-coded a static HTML/CSS/Tailwind site from scratch, including a custom SVG logo, real project photography, and a live quote-request form wired to a form backend.

Live: d-pikano.com

Walker's Place | **Restaurant Website**
Designed and customized a responsive restaurant website with a clean, bold interface built for fast mobile scanning.

Live: walkers-place-ebru.arcada.app

Louisburg BBQ & Brews | **Restaurant Website**
Refined typography and contrast against warm photography to build a business site with a strong, legible brand voice.

Live: louisburg-bbq-6m95.arcada.app

Konnectorz Real Estate | **Real Estate Website**
Simplified the hero and call-to-action hierarchy to build buyer trust for a real estate developer.

Live: konnectorz-real-estate-v3af.arcada.app

Vic Estate | **Real Estate Website**
Fixed layout collisions and color contrast issues to build an accessible, atmospheric real estate site.

Live: vic-estate-ntip.arcada.app

Powhatan Precision Tint | **Automotive Services Website**
Fixed a critical call-to-action visibility bug and refined typography for an automotive tint shop.

Live: powhatan-precision-tint-7ir6.arcada.app

Four Seasons Comfort | **Home Services Website (HVAC & Plumbing)**
Organized a dense, feature-heavy layout, including live availability checks, financing, and reviews, into a clear conversion path.

Live: fourseasons-comfort-bwfw.arcada.app

EDUCATION

University of Nigeria, Nsukka (UNN)
Bachelor of Industrial & Technical Education, Current Undergraduate

CORE COMPETENCIES

Front-End Development • Responsive Web Design • Graphic Design • UI Design • UX Design • Brand Identity • Website Customization • Debugging & Optimization • Visual Communication • Problem Solving • Client Communication • Attention to Detail

DESIGN PHILOSOPHY

Great digital experiences come from pairing careful design with solid front-end fundamentals: clean, semantic code, close attention to typography and spacing, and a relentless focus on how a site actually feels to use. I build things to work correctly on every screen, not just look right on one.
